Working at home has benefits, but places Frances Mooney and Bob Walker within meows of their feline family. Several times daily, the cats remind the couple that they're one meal away from starvation. For thirty-five years, the need to keep the kibble coming has motivated Frances and Bob to provide purr-sonal service for their framing customers. Mooney and Walker's expertise and competitive pricing has attracted a diverse range of clients, including museums, mayors, collectors, corporations, artists, and countless individuals wanting to protect and enhance their memories.

Help feed the Cats' House kitties, and enrich your environment, too!
